

Book Arts Workshops

by Jill Timm of Mystical Places Press

The Amazing Dremel (Tool)

In this creation transforming 2 day class you will learn how to use the magic tool every artist should have, the amazing Dremel tool. You will drill, cut, carve, etch, shape, polish, and grind non-traditional book making materials such as, glass, plastic, metals, wood, tile and more. You will be able to make books out of just about anything! After this class your material options will be limitless. You will try your hand at working with various materials and using several bits for

different purposes and effects. As you play with materials you will be making pages for your sample book for later reference.

2 days, 12 hours, moderate crafts skills, adult

"Fabulous! Your organization and pacing of the class was superb. The introduction to this tool was so helpful and now I am no longer terrified that I'll kill it on my first try. Your patience

and kindness is what made your class exceptional." -- Peggy Marrs

The Post Card Tunnel Book

In this fun one day Tunnel Book workshop you will learn to make old

time 3-dimensional books ... books that have depth ... books that you can look deep into ... books that delight and are fun for all. Participants will be taught basic book-making techniques to make a prototype first. Then will use this knowledge to create an

amazing Tunnel Book out of colorful postcards for a polished and stunning finished book. The prototype model with self contained instructions, will help to create future books.

1 day, 6 hours, all levels, teen-adult

"Your are really terrific teacher! Take a bow!" --Grace Battles

Creating A Hanging Book

In this unique one day Hanging Book workshop you will learn how to take a flat image, a drawing, photo, collage, watercolor, etc., and turn it into a book, that when opened can hang on the wall. Participants will be taught basic book-making techniques to make a prototype first. Then will create an interesting hanging structure in a beautifully finished book. The prototype model made, with the self contained instructions will help create future books.

1 day, 6 hours, all levels, teen- adult

"I really enjoyed your class very much. You are a great teacher, and came very well prepared with experience, ideas and materials..." --Jackie Gardener
